

Template file for barcode label design

Valid for software version 1.14.3 or later

Label size – refer file name

1,0 x 3,0 inch = 2,5 x 7,5 cm label

4,0 x 2,0 inch = 10 x 5 cm label

Installation

Unpack template files from ZIP archive and copy into programm folder where WWS LITE EXE exists. Overwrite existing files in programm folder. Note: in some operating systems you need administrator rights.

Individual Changing

Template files uses ZEBRA © ZPL / EPL printer configuration language and are in standard ASCII text format. You can individualize the template files with an standard ASCII text editor, e.g. as notepad. Please make sure of careful tests after changing. Scan barcodes with your scanner to be sure labels are still readable.
